DETAILED ACTION

Claims 26-58 are pending.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 26-37, 44-46, drawn to a cosmetic composition comprising an extract of *Skeletonema costatum*.

Group II, claim(s) 26-28, 47-48, drawn to a cosmetic composition comprising boldine.

Group III, claim(s) 32, 38-43, drawn to a method of making a composition comprising *Skeletonema costatum*.

Group IV, claim(s) 49-53, 55-56, drawn to a method of applying to the skin a composition comprising *Skeletonema costatum*.

Group V, claim(s) 49-52, 54, 55-58, drawn to a method of applying to the skin a composition comprising boldine.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking groups I-V appears to be that they all relate to a compound which promotes the intercellular communication of skin cells.

However, FR 2683720 teaches a cosmetic composition comprising *Skeletonema* (a compound which promotes the intercellular communication of skin cells) that is applied to the skin for a benefit effect.

Therefore, the technical feature linking the inventions of groups I-IV does not constitute a special technical feature as defined by PCT Rule 13.2, as it does not define a contribution over the prior art.

Accordingly, groups I-IV are not so linked a special technical feature so as to form a single general inventive concept.

A telephone call was made to Gary Nath on 2/23/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
